## Artemis 1 to the moon and back, on a new track

### Artemis One

*Capsule ignited,  
the whole world invited*

*Back to the moon  
beyond night or noon*

*Artemis One  
this morning gone  
On a mission renewed  
A billion reviews*

*The first of its kind  
Replayed to rewind  
Twenty six days  
In mysterious ways*

*a test,  
a quest,  
as SLS  
meets Orion*

*In lunar orbit  
to explore it  
No souls on board  
But twenty four 🏠*

*Sci Fi real-time,  
earning this rhyme,  
"Have a great journey  
and thanks for the  
learning"*

### To the moon and back 🌕🌍

#### *On a new track*

To the moon and back, let Artemis One  
be on the right track

To the moon and back,  
beyond our tracks 🌌

Mankind flies, mankind tries  
to find new ways - to better days

Clearer views- Smarter news - Greater crews  
We write in flight, it can ignite,

what we write with fire  
should inspire 💡
